# COMPANY PROFILE

***"Over the past 14 years, Marathon Threads has grown four-fold and it continues to grow year on year."***

We brought the Marathon brand to the UK in 1994 and have successfully supplied the Garment Decorating Industry for over 25 years.

In addition to our relationship with Marathon, we also have the same exclusive relationship with Plotterfilms of Italy.

We now stock three ranges of embroidery thread, backings, underthreads, Cad Cut Flex and printable films.

Led by a knowledgeable and friendly team, with a combined industry experience of over 100 years – that's a lot of know-how we can use to help you find and purchase exactly what you need.

As we rely on repeat business from our many customers, you can be assured that we will consistently supply products of the highest quality and will always strive to provide you with fantastic service.

***"Some of the company's growth is thanks to its commitment to environmental credentials. Its thread ranges and garment films are Oeko-Tex Standard 100 for environmental compliance in production and have ISO 9001 certification for quality management including meeting regulatory requirements."***

## VISCOSE RAYON

# MARATHON VISCOSE RAYON

## EMBROIDERY TOP THREAD

AVAILABLE ON 5,000m CONES & 1,000m COPS

Marathon Viscose Rayon Embroidery Thread is manufactured in our state of the art factory, which has achieved ISO 9001 and Oeko-Tex accreditation. Used by many of the world's leading brands and garment manufacturers.

This 40s (120D/2) thread performs superbly on all makes of embroidery machines.

High quality viscose rayon has an exceptional sheen and lustre, combined with a soft feel and touch.

## SOLID COLOURS

RANGE OF 377 SHADES

The entire range is held in stock in our warehouse on both sizes for next day delivery. Pantone matching is available.

Black and white are also available in 60s (75D/2) for fine lettering.

## METALLIC

Gold and silver range (7 shades) are held in stock on both 5,000m cones and 1,000m cops. All the other metallic colours are on 1,000m cops only.

## OMBRE & MULTICOLOUR

Our range of 14 ombre and 6 multicolour options are available on 1,000m cops and held in stock for next day delivery.

## EMBROIDERY TOP THREAD

AVAILABLE ON 5,000m CONES & 1,000m COPS

Range of 306 solid shades

Includes 18 fluorescent shades

Marathon Polyester Embroidery Thread is manufactured in our state of the art factory, which has achieved ISO 9001 and Oeko-Tex accreditation.

This 40s (120D/2) thread performs superbly on all makes of embroidery machines.

Polyester embroidery thread offers great value for money. It is extremely hard wearing and will handle heavy duty detergents including bleach, chloride or any solvent except trichloroethylene, in the laundering process.

| 100cm x 200m | 71gm Cut Away | Black  | £132.50 |
| 90cm x 100m  | 35gm Fusible  | White  | £72.95  |
| 90cm x 100m  | 35gm Fusible  | Black  | £89.95  |

## MINI ROLLS

# MINI & DOMESTIC ROLLS

### PRICES

| Size        | Product      | Colour | Price  |
|-------------|--------------|--------|--------|
| 15cm x 200m | 40gm Two Way | White  | £13.95 |
| 20cm x 200m | 40gm Two Way | White  | £18.95 |
| 30cm x 200m | 40gm Two Way | White  | £25.25 |
| 20cm x 200m | 40gm Two Way | Black  | £27.95 |
| 20cm x 200m | 55gm Two Way | White  | £23.55 |
| 20cm x 200m | 35gm Fusible | White  | £26.50 |
| 20cm x 200m | 35gm Fusible | Black  | £30.50 |
| 45cm x 200m | 35gm Fusible | White  | £52.95 |
| 45cm x 200m | 35gm Fusible | Black  | £58.95 |
| 30cm x 50m  | 40gm Two Way | White  | £8.75  |
| 45cm x 50m  | 40gm Two Way | White  | £12.65 |

Many embroiderers find larger rolls sliced into smaller logs a much easier way of handling their backing requirements.

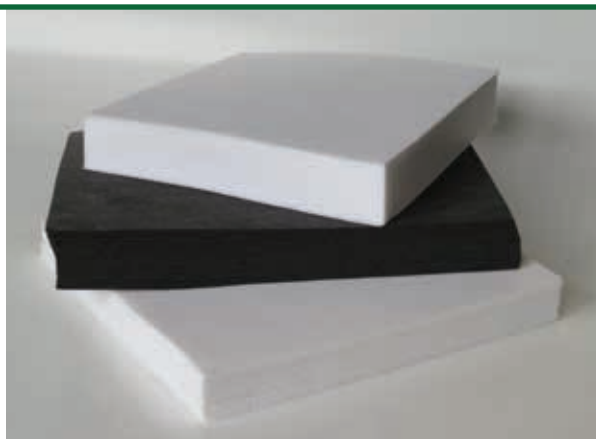

We are able to cut any of our larger rolls into mini rolls. If the size you require does not appear in our stock list, please contact us for prices.

## PIECES

# CUT PIECES

### PRICES (per 1000 pieces)

| Size        | Product       | Colour | Price  |
|-------------|---------------|--------|--------|
| 15cm x 15cm | 40gm Two Way  | White  | £10.95 |
| 18cm x 18cm | 40gm Two Way  | White  | £13.65 |
| 20cm x 20cm | 40gm Two Way  | White  | £17.70 |
| 18cm x 18cm | 40gm Two Way  | Black  | £16.95 |
| 20cm x 20cm | 40gm One Way  | White  | £17.95 |
| 20cm x 20cm | 55gm Two Way  | White  | £19.95 |
| 20cm x 20cm | 55gm Two Way  | Black  | £24.50 |
| 20cm x 20cm | 71gm Cut Away | White  | £25.95 |
| 18cm x 18cm | 65gm One Way  | White  | £25.50 |
| 20cm x 20m  | 35gm Fusible  | White  | £20.95 |
| 20cm x 20cm | 35gm Fusible  | Black  | £24.95 |

The most convenient way for embroiderers to handle their backing, pieces to fit the frame size saving time and improving productivity.

We are able to cut any of our backing fabrics into any size. If the size you require does not appear in our stock list, please contact us for prices.

## FILM

# WATER SOLUBLE FILM

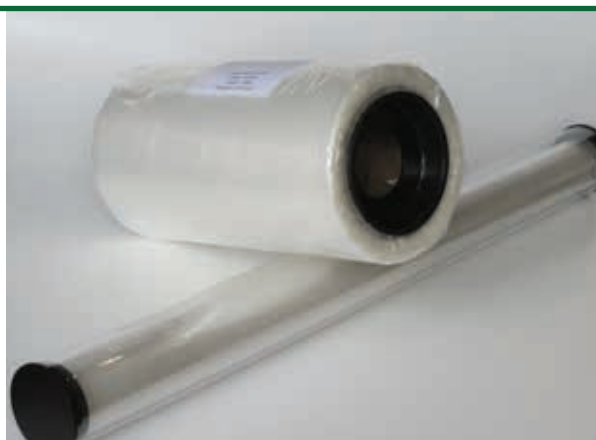

Our cold water soluble films with an embossed finish ensuring ease of use. Use as a topping fabric on fleece, towels or knitwear to prevent the loop or the pile showing through the embroidery.

### PRICES - COMMERCIAL ROLL

| Size        | Weight         | Price  |
|-------------|----------------|--------|
| 20cm x 100m | 25µm (microns) | £24.95 |

### PRICES - RETAIL PACKS

| Size      | Weight         | Price |
|-----------|----------------|-------|
| 30cm x 7m | 20µm (microns) | £4.60 |
| 50cm x 7m | 20µm (microns) | £6.75 |
| 30cm x 7m | 35µm (microns) | £5.90 |
| 50cm x 7m | 35µm (microns) | £9.00 |

The new range of retail rolls all come in re-sealable tubes and are available in two widths and two weights.

Ideal for small jobs, projects and creative decorative stitching. Also suitable for stitching straight on the film to create embroidered lace designs.

## CONES

# MARATHON UNDERTHREAD CONES

### UNDERTHREAD 60/2 – 180s THREAD COUNT

Our standard embroidery underthread is a 60/2 weight thread (also known as 180s). This product is available on 10,000m cones in both white and black. Also available on 1,000m cops in white.

### UNDERTHREAD 80/2 – 220s THREAD COUNT

Marathon's unique embroidery underthread is a 80/2 weight thread (also known as 220s). The product is available in white on either 65,000m (1kg) or 20,000m cones, but only available in black on 65,000m (1kg) cones.

This ultra-fine yet strong embroidery underthread enables you to wind more thread onto the bobbin, which in turn reduces downtime and bobbin changes. This is the number one selling underthread to large contract embroiderers.

### PRICES

| Size          | Weight | Colour        | Price  |
|---------------|--------|---------------|--------|
| 1,000m Cops   | 180s   | White         | £1.12  |
| 10,000m Cones | 180s   | Black & White | £4.95  |

## 3D EFFECT

# MARATHON 3D FOAM

Marathon 3D Foam adds creativity and design flair to your embroidery. Adding a three dimensional effect gives any logo or design a whole new look.

The foam can be used with a machine satin stitch or even in a free motion application.

The needle will pass cleanly through the foam when stitching and the embroidery will then stand proud from the fabric or garment.

Available in black and white.

Our 3D Foam is 3mm thick and sheet size is 50cm x 50cm. The sheets are available in packs of 10.

### PRICES

| Product                       | Colour | Price  |
|-------------------------------|--------|--------|
| 3D Foam 50cm x 50cm - 10 Pack | White  | £15.50 |
| 3D Foam 50cm x 50cm - 10 Pack | Black  | £15.50 |

## EMBROIDERY SUPPLIES

# GROZ BECKERT NEEDLES

Groz Beckert needles are the world's leading brand of needle for all makes of commercial embroidery machines.

### DBxK5 COMMERCIAL

We stock the DBxK5 system, as the eye of these needles is larger, making it kinder to the thread, and easier to re-thread.

There are 2 options within the range; either ball point for general embroidery or sharp point to punch through resistant fabrics.

100 needles per pack.

### 130-705-HE DOMESTIC NEEDLES

With the popularity of the Brother PR series, we have added the needles which fit these machines. Available in 2 sizes in packs of 25 needles.

### PRICES

| Product    | Description      | Sizes              | Pack Quantity | Price  |
|------------|------------------|--------------------|---------------|--------|
| DBxK5      | RG - Sharp Point | 65, 70, 75, 80, 95 | 100           | £16.75 |
| DBxK5      | SE - Ball Point  | 65, 70, 75, 80, 95 | 100           | £16.75 |
| 130-705-HE | Brother PR       | 75, 90             | 25            | £8.75  |

## EMBROIDERY SUPPLIES

# AEROSOLS & LUBRICANTS

We stock a range of products for the embroiderer.

### TEMPORARY ADHESIVE

In an aerosol can. Repositionable adhesive. Will not leave any residue on the fabric.

### SILICONE

A colourless top quality food grade silicone. This can be sprayed on the garment or on the thread as they sit on the machine. Assists smooth running of the thread through the tracks and reduces thread breaks.

### LUBRICANT OIL

Super fine machine oil in an aerosol can with a directional nozzle to assist in machine part lubrication.

#### PRICES

| Product                 | Size      | Price  |
|-------------------------|-----------|--------|
| Temporary Adhesive      | 500ml Can | £5.65  |
| Silicone                | 400ml Can | £4.75  |
| Lubricant Oil (Aerosol) | 500ml Can | £4.75  |
| Compressed Air          | 300ml Can | £15.95 |
| D-Spot Fluid            | 5 Litres  | £24.50 |

### COMPRESSED AIR

Air in a can to keep your machine free of dust and fibres.

### D-SPOT CLEANING FLUID

This product is used in conjunction with a Spot Cleaning Gun.

Designed to remove oil or grease spots from garments when sprayed through the gun onto fabric or garments.

## EMBROIDERY SUPPLIES

# MARATHON EMBROIDERY SCISSORS

Good tools are essential to good practice. A range of scissors specifically suited to the embroiderer for intricate and delicate cutting needs.

3.5 inch Stork Fine Point Scissors

Please contact us for details.

# MARATHON FOR RETAIL

Marathon supplies both high street and online retailers with a range of products which have been specifically developed for the home user.

## MARATHON EMBROIDERY TOP THREAD

Although the majority of retailers prefer the Marathon Rayon, our Polyester range is also available. Both are supplied on 1000m cops.

Marathon Viscose Rayon available in 377 shades.

Marathon Polyester available in 306 shades.

Marathon Metallic available in 18 shades.

Marathon Multicolour available in 20 shades.

## DISPLAY STANDS

The thread is available in our attractive bespoke display units which hold 60 shades. This allows each retailer to stock and sell a colour range of their choice, from 60 shades to the entire range.

## BOXED SETS

Our range of boxed sets have proven to be extremely popular; some are theme based and others colour palette based. Some of the sets also include special threads.

Marathon 20 Box Set available in 19 options.

Marathon 50 Box Set available in 2 options.

Available in Marathon Viscose Rayon and Polyester.

Ideal as starter packs with a machine, threads for projects or gifts. Full details available on request.

## 6 PACKS

We introduced the 6 pack range, to provide an alternative price point for the customer.

Marathon Rayon 6 Packs available in 10 options.

Marathon Polyester 6 Packs available in 5 options.

Marathon Specials 6 Packs available in 5 options.

Full details available on request.

## EMBROIDERY & SEWING SUPPLIES

We have developed products and packaging for the home user:

## EASY WEED

# FLEX CLASSIC

For application onto cotton and polyester  
WITH ADHESIVE CARRIER

FLEX CLASSIC is our best seller. The range is available in many colours (see on the opposite page) with a matt surface. The film is manufactured in 50% Polyurethane and 50% Copes. The product is 90µm (microns). The film will handle fine detail and small letters and after application it is hot peel.

The material can withstand direct ironing although we would still recommend washing garments inside out.

FLEX CLASSIC can be overlaid to create multi coloured designs.

## MATT METALLIC

# FLEX CLASSIC METALLIC

For application onto cotton and polyester.  
WITH ADHESIVE CARRIER.

We offer a wide range of metallic colours (see on the opposite page) with a matt finish. The film is manufactured in 50% Polyurethane and 50% Copes. The product is 90µm (microns). The film will handle fine detail and small letters and after application it is hot peel.

The material can withstand direct ironing although we would still recommend washing garments inside out. Application is exactly the same as for the standard colours.

# FLEX CLASSIC SUBLISTOP

For sublimation printed sportswear - PREVENTS BLEEDTHROUGH  
WITH ADHESIVE CARRIER

FLEX CLASSIC SUBLISTOP has been made with a crystalline layer that prevents the sublimatic migration of colour from the garment through the transfer.

To be used on sublimation printed polyester fabrics.

## 3D FOAM

# FLEX GEL

For application onto cotton, polyester and nylon  
WITH ADHESIVE CARRIER

FLEX GEL is our foam material that will give your logos originality. Thanks to a new technology, developed in our own laboratory, this is a unique product on the market. The feature of this material, although 750µm (microns) thick, is its soft 3-dimensional effect. Flex Gel can be overlapped with other materials in our range.

## 3D EFFECT

# FLEX SPESSO

For application onto cotton, polyester and nylon  
WITHOUT ADHESIVE CARRIER

FLEX SPESSO is a new product that delivers a similar 3D effect to Flex Gel. As Flex Spesso is 500µm (microns) thick, the result is a product that is easy to handle and work with.

Available in a limited range of colours.

## WATERPOOF

# FLEX NYLON

For application onto nylon and lycra. WITH ADHESIVE CARRIER

FLEX NYLON is our material recommended for application onto nylon fabrics i.e. waterproof jackets and umbrellas. The liner is coloured sky blue to distinguish the product from others in the range.

We would advise one or two preliminary wash tests before doing large-scale production on new garments to check suitability. There are many different dying or coating finishings for fabrics on the market.

## SAFETY

# FLEX REFLECTIVE

For application onto garments requiring high visibility  
Rolls are 60cm wide

FLEX REFLEX consists of metallized micro-beads producing an extremely high level of refraction. The photometric values of the film exceed the minimum limits set by EN 20471 for reflective properties.

### AVAILABLE BY THE METRE

## SPORTS NUMBERS

# FLEX LINEA

For application onto cotton, polyester and nylon  
CARRIER WITH NO TACK

FLEX LINEA is our PU material, with a non adhesive carrier this makes it perfect for fast weeding of sports numbers and large logos. Cuts and weeds really easily.

The film has a soft finish. The non adhesive carrier also allows you to cut small details. This film can be overlapped.

## FAST EASY WEED

# DIGITAL INVITE LIGHT

AVAILABLE IN MATT OR SATIN GLOSS

**FOR DARK GARMENTS**

For application onto cotton and polyester

DIGITAL INVITE LIGHT is our best selling film. A lightweight film of only 90µm (microns) our PU/Copes manufactured film has a slightly adhesive polyester support. This allows you to print and cut small details before pressing the transfer onto cotton and polyester fabrics through the use of our clear application tape or yellow application tape on larger prints. We would suggest using yellow application tape for larger less detailed prints. This material is easy to use, cuts quickly and weeds really well.

**IMMEDIATE APPLICATION WITH NO DRY TIME**

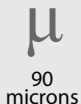

**ALL OUR FULL ROLLS ARE 25 METRES**

| 25m x 50cm roll              | 25m x 75cm roll | 25m x 100cm roll |

## METALLIC EFFECT

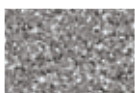

# DIGITAL INVITE LIGHT GLITTER SILVER

FOR DARK GARMENTS

For application onto cotton and polyester

DIGITAL INVITE LIGHT GLITTER SILVER is our new material with the same features as DIGITAL INVITE LIGHT but with a glitter silver coating, giving all colours a metallic effect. Manufactured in PU, this is a lightweight film of only 90µm (microns).

**IMMEDIATE APPLICATION WITH NO DRY TIME**

## BLOCKOUT

# DIGITAL SUBLISTOP

For application onto polyester sublimated fabrics.  
PREVENTS BLEEDTHROUGH

DIGITAL SUBLISTOP is one of our Pu/Copes materials with a blockout layer. It is 140µm (microns). The film is manufactured for polyester fabrics which have been printed with sublimation inks. The sublistop layer prevents the printed fabric colours bleeding through, protecting the white transfer. We believe this is the best product of its kind on the market.

**IMMEDIATE APPLICATION WITH NO DRY TIME**

## WATERPOOF

# DIGITAL UNIVERSAL

FOR NYLON WITH A MATT FINISH

For application on cotton, polyester and nylon

DIGITAL UNIVERSAL is manufactured in 100% PU for Solvent, Ecosolvent and Latex printers. It is only 70µm (microns). The carrier film is slightly adhesive to help stability on such a thin film. The special thermoadhesive allows transfer onto a variety of fabrics (cotton, polyester and nylon). Ideal for waterproof and coated fabrics.

**IMMEDIATE APPLICATION WITH NO DRY TIME**

**ALL OUR FULL ROLLS ARE 25 METRES**

## WHITE FABRICS

# DIGITAL EXTRA CLEAR

For application onto cotton, polyester and nylon.  
FOR WHITE GARMENTS

DIGITAL EXTRA CLEAR a super thin film at only 45µm (microns). with a soft, smooth finish. Manufactured in 100% PU transparent film. The carrier film is non adhesive. The material is designed to be used with white fabrics, made of cotton, polyester or nylon. Mirror print and cut. Print in mirror, no application tape required.

**IMMEDIATE APPLICATION WITH NO DRY TIME**

## ECONOMY

# DIGITAL PROMO

NO APPLICATION TAPE REQUIRED

For application onto cotton and polyester

DIGITAL PROMO is manufactured from PVC/PU. The Material is on non adhesive paper carrier and is 160µm (microns). It is ideal for large logos, numbers and for promotional jobs. Because the film is thicker transfers can be lifted from the paper carrier by hand and placed onto the garment without the need to use application tape. The combination of a paper carrier and no application tape offer an economic alternative.

**IMMEDIATE APPLICATION WITH NO DRY TIME**

## SCREEN EFFECT

# SCREEN PRINT DARK

For application onto cotton and polyester  
FOR DARK GARMENTS

SCREEN PRINT DARK has been produced to give the transfer the impression of screen printing. Although the material is smooth it gives the impression of distressed ink on the garment. The film is 55µm (microns). To achieve this affect the film is very thin and is not suitable for small transfers or fine details.

**IMMEDIATE APPLICATION WITH NO DRY TIME**

## SCREEN EFFECT

# SCREEN PRINT CLEAR

For application onto cotton and polyester.  
FOR WHITE GARMENTS

SCREEN PRINT CLEAR has been produced to give the transfer the impression of screen printing. Although the material is smooth it gives the impression of distressed ink on the garment. The film is 45µm (microns) and comes on a paper carrier. Although designed for white garments you can also get good results on pastels. The material is mirror printed and has to be cut with scissors as it is too thin for print blades. No application tape is required.

**IMMEDIATE APPLICATION WITH NO DRY TIME**

## 3D EFFECT

# D-GEL & D-PATCH

For application onto cotton, polyester and nylon  
WITH AN ADHESIVE CARRIER

D-GEL is our new printable foam material for Solvent, Ecosolvent and Latex machines. The film produces a soft 3D effect. Developed in our own laboratory, D-Gel is a unique product on the market. After pressing the material becomes around 10% thinner but keeps its soft 3D effect.

D-PATCH has been developed alongside D-GEL and has the same characteristics. This film however produces a soft faux leather finish.

Both products are manufactured in PU and are 750µm (microns).

**IMMEDIATE APPLICATION WITH NO DRY TIME**

## SOFT TOUCH

# DIGIFLOCK

For application onto cotton and polyester.  
WITH AN ADHESIVE CARRIER.

DIGIFLOCK is our printable flock. The film is 750µm (microns). The film is produced on an adhesive polyester carrier which allows the production of transfers with fine detail.

We recommend a double print pass to achieve brilliant colour. For example this would be the Overprint feature in Printer Controls when using Roland Versaworks.

**IMMEDIATE APPLICATION WITH NO DRY TIME**

Application Tape is our self adhesive material to lift designs from their carrier to allow heat application of the transfer onto the garment. We recommend using a spatula when applying the tape over the transfer. The tape can be used more than once because the surface does not melt under heat-presses.

Our guide of application tapes below indicates which tape to use with our range of digital materials.
