

DIGITAL INVITE LIGHT

For application onto cotton and polyester

With an adhesive carrier

DIGITAL INVITE LIGHT is our best selling film. A lightweight PU/Copes film at only 90 microns with a slightly adhesive carrier. This allows for the printing and cutting of fine detail. This material is very user friendly, cuts quickly and weeds really well.

SUGGESTIONS

We suggest after removing the application tape, to cover the design and re-press for 2-5 seconds. This can improve the feel and texture of the transfer on the garment.

PLEASE NOTE

The technical data above are the results of our laboratory tests. We always recommend a small trial test of each product before production. We also recommend not to store the materials in damp or high temperature rooms.
