

FLEX NYLON

For application onto nylon and lycra

With an adhesive carrier

FLEX NYLON is our film recommended for application onto nylon fabrics i.e. waterproof jackets and umbrellas. The carrier film is sky blue to distinguish the product from others in the range. We recommend preliminary wash tests because there are so many different fabrics with diverse dyeing and coating finishes on the market.

FILM COMPOSITION	PU	25m ROLLS
FILM THICKNESS	70 MICRONS	
CARRIER	POLYESTER	BLADE
COATING	MATT	
MINIMUM SIZE OF CUT	0.7 mm	WASH
OFFSET	0.42 mm / 0.47mm

White S100	Black S199	Navy Blue S205	Royal Blue S230
Red S350	Orange S370	Medium Yellow S430	Gold Yellow S410
Green S540	Forest Green S560	Silver M150	Gold M410

SUGGESTIONS

We suggest after removing the carrier, to cover the design and re-press for 2-5 seconds. This can improve the feel and texture of the vinyl on the garment.

PLEASE NOTE

The technical data above are the results of our laboratory tests. We always recommend a small trial test of each product before production. We also recommend not to stock the materials in damp or high temperature rooms.
