

FLEX SOFT SHELL

For technical polyester dyed fabrics (soft shell)

With an adhesive carrier

FLEX SOFT SHELL is our new flex material that provides a solution to both colour migration and the difficulty of bonding to the new technical fabrics, widely used in the sports and leisure market.

PRESS TIME	8 SECONDS	
CARRIER REMOVAL	WARM	

COLOURS AVAILABLE

 White SS100	 Silver SSM150	 Gold SSM410	
 Orange FLUO SSF370	 Pink FLUO SSF390	 Yellow FLUO SSF450	 Green FLUO SSF540

SUGGESTIONS

We suggest after removing the carrier, to cover the design and re-press for 2-5 seconds. This can improve the feel and texture of the vinyl on the garment.

PLEASE NOTE

The technical data above are the results of our laboratory tests. We always recommend a small trial test of each product before production. We also recommend not to stock the materials in damp or high temperature rooms.
